

## **Westbrook Redevelopment Update**

In 2015, Pennrose and The Cloud Company were chosen as the developer for the purpose of redeveloping Westbrook Village, a 360-unit residential development situated on 65 acres on Albany Avenue in Hartford's North End.

The developers recently met with the current residents of the Westbrook Village and community stakeholders on July 20th to gain their input and begin to create masterplan for the site which will include residential, commercial and retail components. In addition, the developers are in the process of securing for their revitalization efforts. Please note recent meeting agendas and meeting notes are available on the Housing Authority website.

The residents of Westbrook Village are working to establish a Resident Association and participating in the election of Resident Association Board of Officers to represent all members of the community during the redevelopment process. Over the next several months the residents will work to establish organization by-laws, nominate community members and participate in the election of officers.
